**FCC SEEKS COMMENT REGARDING POSSIBLE  
REVISION OR ELIMINATION OF RULES UNDER  
THE REGULATORY FLEXIBILITY ACT, 5 U.S.C. § 610**

**Released:** September 6, 2002

**Comment Period Closes:** November 8, 2002

1. Pursuant to the Regulatory Flexibility Act of 1980, *see* 5 U.S.C. §610, the Federal Communications Commission (FCC) hereby publishes a plan for the review of rules issued by the agency in calendar years 2000, 2001 and 2002 which have, or might have, a significant economic impact on a substantial number of small entities. The purpose of the review will be to determine whether such rules should be continued without change or should be amended or rescinded, consistent with the stated objectives of applicable statutes, to minimize any significant economic impact of such rules upon a substantial number of small entities.
2. The accompanying Appendix lists the FCC regulations to be reviewed during the next twelve months. In succeeding years, as here, lists will be published for the review of regulations promulgated ten years preceding the year of review.

3. In reviewing each rule under this plan, in order to minimize the possible significant economic impact on small entities, consistent with the stated objectives of the applicable statutes, the FCC will consider the following factors:
  - (a) The continued need for the rule;
  - (b) The nature of complaints or comments received concerning the rule from the public;
  - (c) The complexity of the rule;
  - (d) The extent to which the rule overlaps, duplicates, or conflicts with other Federal rules, and, to the extent feasible, with State and local governmental rules; and
  - (e) The length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule.
  
4. Appropriate information has been provided for each rule, including a brief description of the rule and the need for and legal basis of the rule. The public is invited to comment on the rules chosen for review by November 8, 2002. All relevant and timely comments will be considered by the FCC before final action is taken in this proceeding. To file formally in this proceeding, participants should file an original and four copies of all comments. Comments will be available for public inspection during regular business hours in the FCC Reference Center of the Federal Communications Commission, 445 12<sup>th</sup> Street, SW, Washington, DC 20554.

### IV. PART 80 – STATIONS IN THE MARITIME SERVICES

**Brief Description:** These rules include radio services in the Maritime Mobile Service, the Maritime Mobile-Satellite Service, the Maritime Radiodetermination Service, and stations in the Fixed Service that support maritime operations. Regardless of service, marine stations are either considered to be stations on shipboard or stations on land. A license is required for each land station. Ship stations are licensed by rule (no individual license needed) when they operate only on domestic voyages and are not required by law to carry a radio. Rules concerning domestic marine communications are matched to requirements of the U.S. Coast Guard, which monitors marine distress frequencies continuously in U.S. waters.

**Need:** These marine radio service rules are promulgated to promote safety and operational activities of nonfederal maritime activities, including U.S. vessels that traverse international waters. The rules also reduce radio interference among radio users by promoting the efficient use of the radio spectrum.

**Legal Basis:** Secs. 4, 303, 48 Stat. 1064-1068, 1081-1105, as amended; 47 U.S.C. 151-155, 301-609; 3 UST 3450; 3 UST 4726; 12 UST 2377.

**PART 1 – PRACTICE AND PROCEDURE**

**SUBPART I – PROCEDURES IMPLEMENTING THE NATIONAL ENVIRONMENTAL POLICY ACT OF 1969**

**Brief Description:** The rules contained in subpart 1 implement the requirements of the National Environmental Policy Act (NEPA) as well as a series of other federal environmental laws, such as the Endangered Species Act of 1973, as amended, the National Historic Preservation Act of 1966, the Wilderness Act of 1964, as amended, laws relating to Indian Ceremonial Sites and the Wildlife Refuge Laws. In addition the Commission's environmental rules implement Executive Orders regarding flood plains and wetlands regulation. By statute and/or as set forth in the regulations of the Council on Environmental Quality (CEQ), the Commission is responsible for ensuring compliance with these laws. The rules also identify certain special issues for consideration, including the impact of high-intensity white lights on towers in residential neighborhoods and the effect of radiofrequency emissions on the human environment.

**Need:** The Commission's environmental rules identify those sensitive environmental issues which Commission licensees must address. As the primary Federal agency managing and licensing radio spectrum broadcasters, wireless telephone carriers and other public and private radio users, the Commission complies with NEPA by requiring its licensees to assess and, if found, report the potential environmental consequences of their proposed projects.

**Legal Basis:** 47 U.S.C. §§ 154(i), 154(j), and 303(r).

**PART 36 – JURISDICTIONAL SEPARATIONS PROCEDURES; STANDARD PROCEDURES FOR SEPARATING TELECOMMUNICATIONS PROPERTY COSTS,**

## **REVENUES, EXPENSES, TAXES AND RESERVES FOR TELECOMMUNICATIONS COMPANIES**

**Brief Description:** This rule contains procedures and standards for allocating telephone company investment, expenses, taxes, and reserves between the state and federal jurisdictions.

**Need:** This rule permits carriers that serve high-cost areas to allocate additional local loop costs to the interstate jurisdiction and recover those costs through the universal service mechanism.

**Legal Basis:** Sec. 4; 48 Stat. 1066, as amended, 47 U.S.C. § 154. Sec. 205, 219, 220, 221(c), 48 Stat. 1077 as amended, 1078; 47 U.S.C. §§ 154, 205, 219, 220, 221(c).

#### **SUBPART H – APPLICATIONS FOR SPECIAL PERMISSION**

**Brief Description:** The Part 61 rules are designed to implement the provisions of sections 201, 202, 203 and 204 of the Communications Act and ensure that rates are just, reasonable, and not unjustly or unreasonably discriminatory. The Part 61 rules govern the filing, form, content, public notice periods, and accompanying support materials for tariffs. Part 61 rules also establish the pricing rules and related requirements that apply to incumbent local exchange carriers that are subject to price cap regulation.

**Need:** At the time the Commission implemented the Treasury Department Lockbox Collection Program for all fees, requiring that submissions with fees be filed only with the lockbox bank in Pittsburgh, the tariff rules were revised to specify that any special permission application must be filed with the fee payment at the lockbox bank, while the attachments must be filed at the Office of the Secretary.

### **PART 64 – MISCELLANEOUS RULES RELATING TO COMMON CARRIERS**

## **SUBPART I – PROCEDURES IMPLEMENTING THE TELECOMMUNICATION RELAY SERVICES AND RELATED CUSTOMER PREMISES EQUIPMENT FOR PERSONS WITH DISABILITIES**

**Brief Description:** Title IV of the Americans with Disabilities Act (ADA), which is codified at section 225 of the Communications Act of 1934, as amended (the Act), mandates that the Commission ensure that interstate and intrastate telecommunications relay services (TRS) are available, to the extent possible and in the most efficient manner, to individuals in the United States with hearing and speech disabilities. Title IV aims to further the Act’s goal of universal service by providing to individuals with hearing or speech disabilities, telephone services that are functionally equivalent to those available to individuals without such disabilities. The ADA requires the Commission to establish functional requirements, guidelines, and operational procedures for TRS, and to establish minimum standards for carriers’ provisioning of TRS. To establish a TRS that provides services which are functionally equivalent to telephone services available to voice users, Congress directed, among other things, that the Commission prohibit TRS providers from “failing to fulfill the obligations of common carriers by refusing calls.

On July 26, 1991, the Commission released its First Report and Order on TRS. This item stated that, “the Commission is amending its rules to require that each common carrier providing telephone voice transmission services shall, no later than July 26, 1993, provide throughout the area in which it offers service, telecommunications relay services (TRS), individually, through designees, through a competitively selected vendor, or in concert with other carriers.”<sup>1</sup> This report and order adopted the Commission’s Part 64, subpart F, rules.

In addition, one part of payphone service within the purview of NSD (Part 64, Subpart F) concerns TRS. In its First Report and order on TRS (1991), the Commission interpreted the ADA to require TRS providers to handle any type of call normally provided by common carriers, including coin sent paid TRS calls. Due to technical concerns, the Commission has not been able to enforce this requirement. Presently, a Report and Order is being written which would eliminate this requirement

**Need:** This rule implements the provisions of the ADA of 1990.

**Legal Basis:** 47 U.S.C. §§ 51, 54(I), 54(j), 201-205, and 403.

## **PART 64 – MISCELLANEOUS RULES RELATING TO COMMON CARRIERS**

### **SUBPART B – RESTRICTIONS ON INDECENT TELEPHONE MESSAGE SERVICES**

**Brief Description:** This rule implements the provisions of section 223(b) of the Act relating to defenses to prosecution for indecent commercial communications.

**Need:** This rule protects consumers by ensuring that they have access to useful information about the rates charged by operator service providers, and that they are able to reach the operator service provider of their choice.

**Legal Basis:** Sec. 1, 4, 218-220, 226, 48 Stat. 1070, as amended; 47 U.S.C. §§ 151, 154, 218-220, 226.

**LVIII.**

**LIX. PART 64 -- MISCELLANEOUS RULES RELATING TO COMMON CARRIERS**

**LX.**

**LXI. SUBPART N -- EXPANDED INTERCONNECTION**

**Brief Description:** This rule requires that larger incumbent local exchange carriers (LECs), which do not participate in the National Exchange Carrier Association tariff, must provide expanded interconnection. Subpart N requires these incumbent LECs to allow other parties to interconnect with their networks through physical or virtual collocation for the provision of interstate access and switched transport services. Any interested party, including competitive LECs, interexchange carriers, and end users may take expanded interconnection from the LECs subject to this rule.

**Need:** This rule promotes increased competition in the provision of interstate services by removing barriers to competitive provision of special access and switched transport services. In particular, subpart N makes collocation and interconnection available to parties not covered by Part 51 of the Commission's rules such as large businesses and universities.

**Legal Basis:** 47 U.S.C. §§ 151, 154, and 201-205

**LXII. SECTION NUMBER AND TITLE:**

64.1401	Expanded interconnection.
64.1402	Rights and responsibilities of interconnectors.

**PART 68 – CONNECTION OF TERMINAL EQUIPMENT TO THE TELEPHONE NETWORK**

**SUBPART A – GENERAL**

**Brief Description:** This rule defines the point of demarcation between customer premises telephone wiring and the line owned and/or controlled by the local exchange carrier.

**Need:** This rule is necessary to establish competition in the provision and maintenance of inside wire.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.3	Definitions ( <i>Demarcation Point</i> ).

**Brief Description:** This rule requires that all telephones be compatible with hearing aid devices.

**Need:** This rule implements the provisions of the Hearing Aid Compatibility Act of 1988.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.4           Hearing-aid Compatible Telephones.

**LXIII. SUBPART B—CONDITIONS ON USE OF TERMINAL EQUIPMENT**

**Brief Description:** This rule authorizes telecommunications common carriers to discontinue service when harm occurs originating from customer-installed equipment.

**Need:** This rule allows telecommunications common carriers to avoid harm to the public switched telephone network and to other customers' service originating from customer-installed wiring or equipment.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.108        Incidence of harm.

**Brief Description:** This rule requires the public locations that are required to have hearing-aid compatible telephones, and describes the extent to which they are required to have such telephones. In addition, it sets the times by which these telephones must be available.

**Need:** This rule specifies that public buildings and businesses must make available hearing aid compatible telephones, and by what date.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.112        Hearing aid-compatibility.

**LXIV. SUBPART C—TERMINAL EQUIPMENT APPROVAL PROCEDURES**

**Brief Description:** This rule states the requirements pertaining to customer installation of inside wire that will protect the public switched telephone network.

**Need:** The rule directs customer premises wiring to be installed in such a way that it will not harm the public switched telephone network.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.213 Installation of other than “fully protected” non-system simple customer premises wiring.

**LXV. SUBPART D—CONDITIONS FOR TERMINAL EQUIPMENT APPROVAL**

**Brief Description:** This rule requires automatic dialing devices that deliver a recorded message to release the called party’s telephone line promptly.

**Need:** Prior to this rule, automatic dialing devices delivering a recorded message could and did prevent a called party from acquiring a dial tone for an extended period of time. This rule avoids situations in which a called party cannot access his telephone line to make emergency and other calls.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.318(c) Line seizure by automatic telephone dialing systems.

**Brief Description:** This rule requires that all customer premises equipment and software be capable of accessing operator service providers using equal access codes.

**Need:** This rule facilitates competition among operator service providers by requiring that all callers have access to 10XXX code services.

**Legal Basis:** 47 U.S.C. §§ 151-154, 201-205, and 303(r).

**Section Number and Title:**

68.318(e) Requirement that registered equipment allow access to common carriers.

**PART 69 – ACCESS CHARGES**

**SUBPART B – COMPUTATION OF CHARGES**

**Brief Description:** The Part 69 rules are designed to implement the provisions of sections 201 and 202 of the Communications Act and protect consumers by preventing the exercise of market power by incumbent local exchange carriers by ensuring that rates are just, reasonable, and not unjustly or unreasonably discriminatory. The requirement for a certain minimum set of access charge rate elements and the rate calculation rules for rate-of-return carriers also greatly reduce the resources required in the tariff review process.

**Need:** Section 69.101 was adopted to replace rate-of-return regulation with a form of incentive regulation, one that directly limits rates by means of price caps, for the largest local exchange

carriers. Section 69.119 was adopted to stimulate the introduction of innovative new enhanced services. Section 69.120 established a new switched access element for queries by interexchange carriers to local exchange carrier line information databases. Section 69.127 was adopted to encourage efficient use of transport facilities by allowing pricing that reflects costs, creating a rate structure conducive to interexchange competition, and avoiding interference with the development of interstate access competition.

**Legal Basis:** 47 U.S.C. §§ 154, 201, 202, 203, 205, 403.

**Section Numbers and Titles:**

69.101	General.
69.119	Basic service element expedited approval process.
69.120	Line information database.
69.127	Transitional equal charge rule.

**LXVI. SUBPART D -- APPORTIONMENT OF NET INVESTMENT**

**Brief Description:** The Part 69 rules protect customers from the exercise of market power by incumbent local exchange carriers. The requirement for a minimum set of access charge rate elements and the pricing rules for both rate-of-return and price-cap LECs greatly reduce the Commission resources required to ensure carrier compliance with sections 201 and 202 of the Communications Act. These requirements also greatly facilitate analysis of access charges by other interested parties.

**Need:** Section 69.301 was adopted to facilitate more cost-based pricing and greater efficiency in the provision of transport service.

**Legal Basis:** 47 U.S.C. §§ 154, 201, 202, 203, 205, 218, 220, 403.

**Section Number and Title:**

69.301	General.
--------	----------

**SUBPART G – EXCHANGE CARRIER ASSOCIATION**

**Brief Description:** The Part 69 rules also provide for the establishment of the National Exchange Carrier Association (NECA), which files tariffs on behalf of many of the smaller, rate-of-return local exchange carriers. Annual access tariff filings, including the average schedule formula changes filed by the National Exchange Carrier Association, were adopted to assure that rates would be reasonable, would reflect rules changes, and would become more closely aligned with costs.

**Need:** Previously, the National Exchange Carrier Association was required to file updates to its average schedule formula, or certify that no change was required, by June 30 each year, which was six months before the January 1 effective date of the annual access tariffs. In the same

rulemaking that changed the effective date for annual access tariffs from January 1 to July 1, the average schedule formula filing deadline was extended from June 30 to December 31 each year, six months before the effective date for annual access tariffs.

**Legal Basis:** 47 U.S.C. 154, 201, 202, 203, 205, 218, and 403 and 5 U.S.C. 553.

**Section Numbers and Titles:**

69.606            Computation of average schedule company payments.
