D.C., AND WEST VIRGINIA PERFORMANCE MEASUREMENT RESULTS UNDER BELL  
ATLANTIC/GTE MERGER

**WC Docket No. 98-184**

In the *Bell Atlantic/GTE Merger Order*, the Commission adopted conditions (Merger Conditions), including a Carrier-to-Carrier Performance Plan (Performance Plan), to facilitate oversight of Verizon's market-opening progress.<sup>1</sup> The Performance Plan requires Verizon to report, on a monthly basis, the results of 17 performance measurements for each of its states, and to make payments to the United States Treasury if Verizon's performance falls below certain specified standards. The performance measurements depict Verizon's service to competitive LECs in the areas of operations support systems, provisioning, maintenance, interconnection, local number portability, collocation, and billing timeliness. Pursuant to the Merger Conditions, the Performance Plan is effective in each state until the earlier of (i) 36 months after Verizon's obligation to make payments starts, (ii) the date on which Verizon receives section 271 authority in a state, or (iii) the effective date of a comprehensive performance plan adopted by a state commission.<sup>2</sup>

The Commission has approved Verizon's applications to provide in-region, interLATA services in Rhode Island, Vermont, Maine, New Jersey, New Hampshire, Delaware, and Virginia.<sup>3</sup> Accordingly,
