## **NEW BROADCAST AUXILIARY INTERFACE BETWEEN THE UNIVERSAL LICENSING SYSTEM (ULS) AND THE CONSOLIDATED DATABASE (CDBS) AVAILABLE JANUARY 22, 2003.**

*The new interface links licensing information for Broadcast Auxiliary stations in ULS to their "parent" stations in CDBS.*

As the result of a cooperative effort between the Wireless Telecommunications Bureau and the Media Bureau, a new electronic interface will permit linking between Broadcast Auxiliary stations in ULS and their parent stations in CDBS via Facility Identification Number. This interface provides streamlining and improved processing for FCC customers with Broadcast Auxiliary licenses. Beginning **January 22, 2003**, the following changes will be in effect:

- When applying for new Auxiliary licenses in ULS Online Filing, indicate that you have a parent station. Enter the Facility Identification Number, and information about the parent licensee will pre-fill into the ULS application from the CDBS database.
- Certain changes made to the parent station license in CDBS, such as Renewals, Cancellations, and Administrative Updates, will be reflected in all Auxiliary stations in ULS with the same Facility ID Number (after overnight processing).

### **Parent Station Information to be Updated**

The following information will be automatically updated from CDBS into ULS during overnight processing for all Auxiliary stations with the parent's Facility ID number:

- Facility ID Number of the parent station
- Parent Station Licensee Name and Address
- City and State of Principal Community of the parent station
- Radio Service of the parent station
- Expiration date of the parent station's license
