WIRELESS TELECOMMUNICATIONS BUREAU GRANTS CONSENT FOR THE FULL AND PARTIAL ASSIGNMENT AND TRANSFER OF CONTROL OF LICENSES TO IMPLEMENT GSM CORRIDOR, LLC JOINT VENTURE

WT Dkt. No. 02-354

Pursuant to sections 4(i) and 310(d) of the Communications Act of 1934, as amended,¹ and section 0.331 of the Commission’s rules,² the Wireless Telecommunications Bureau (“Bureau”) approves the applications filed by AT&T Wireless Services, Inc. (“AWS”) and Cingular Wireless LLC (“Cingular”) listed below requesting Commission consent to the full and partial assignment and transfer of control of broadband Personal Communications Service (“PCS”) licenses. This consent is necessary to implement a joint venture – GSM Corridor, LLC (“GSM Corridor”) – to build infrastructure using GSM technology that will enable the joint venture partners to provide service to subscribers along approximately 4,000 miles of select highways in rural parts of the country. No comments or petitions to deny were received in response to the Public Notice announcing that the applications had been accepted for filing.³ The Bureau finds, upon consideration of the record, that the proposed full and partial assignments and transfers of control will serve the public interest, convenience, and necessity.⁴
