AGENDA FOR THE FEDERAL COMMUNICATIONS COMMISSION'S THIRD WIRELESS E911 COORDINATION INITIATIVE

This Public Notice advises interested persons of the agenda for the third meeting of the Federal Communications Commission's Enhanced 911 Coordination Initiative, which will be held at FCC Headquarters, 445 12th Street, N.W., Washington, D.C., on April 27 and 28, 2004.

Wireless E911 deployment is an important component of our nation's homeland security. The Commission's third E911 Coordination Initiative will focus on public/private partnerships in the E911 setting. Once again, the Commission looks forward to participation by all of the relevant E911 stakeholders -- wireless carriers, wireline providers, manufacturers, the public safety community, and the federal, state, and local governments -- to continue the discourse on successful and cooperative E911 deployment. The Initiative will also feature a Technology Demonstration Room where attendees will have the opportunity to view and discuss the latest technological innovations directly with the vendors. A final agenda for the Coordination Initiative will be released several days before the event.
