WIRELESS TELECOMMUNICATIONS BUREAU ACTION

REGION 41 (Utah) 700 MHz REGIONAL PLANNING COMMITTEE ANNOUNCES NEXT MEETING

The Region 41 (Utah) 700 MHz Public Safety Regional Planning Committee announces that its fifth meeting will be held Friday, June 11, 2004, at the Department of Workforce Services Office, 457 Kane Creek Road, Moab, Utah.

The purpose of the meeting is to continue the allocation planning process of the 700 MHz spectrum for public safety in Region 41.

The Region 41 (Utah) 700 MHz Public Safety Planning Committee meeting is open to the public. All eligible public safety providers whose sole purpose or principal purpose is to protect the safety of life, health, or property in Region 41 would utilize these frequencies. It is essential that not only public safety, but all government, Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's Rules be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate and represent your agency's needs.

All interested parties wishing to participate in the planning for the use of new Public Safety spectrum in the 700 MHz band and/or the 4.9 GHz band within Region 41 are encouraged to attend. Video conferencing will be available to other state buildings. For video conferencing access and site locations visit the Utah Wireless Integrated Network (UWIN), 700 MHz RPC web page at <http://www.uwin.utah.gov>. For further information about the meeting contact:
