Report No. SAT-00227

DA No. 04-2153  
Friday July 16, 2004

## POLICY BRANCH INFORMATION

### Actions Taken

The Commission, by its International Bureau, took the following actions pursuant to delegated authority. The effective date of these actions is the release date of this Notice, except where an effective date is specified.

---

**SAT-LOA-20031218-00358** E S2610 SES Americom, Inc.  
Launch and Operating Authority  
Grant of Authority Effective Date: 07/13/2004

**Nature of Service:** Fixed Satellite Service

SES Americom, Inc.'s ("SES Americom") application, SAT-LOA-20031218-00358, Call Sign S2610, to launch and operate its Americom-23 ("AMC-23") hybrid C/Ku-Band satellite at the 172 E.L. orbital location in the 3700-4200 MHz, 5925-6425 MHz, 10.95-11.2 GHz, 11.45-11.7 GHz, 12.2-12.75 GHz, and 14.-14.5 GHz frequency bands was granted by the Policy Branch Chief, Satellite Division on July 13, 2004. In the same document, SES Americom's request for a waiver of the cross-polarization isolation requirements, contained in Section 25.210 (i) of the Commission's rules, was granted as the failure to meet the cross-polarization isolation requirements would not adversely impact any other operator, and that the only party to suffer an increase in interference would be SES Americom itself. In addition, SES Americom's request for waiver of Section 25.210(f) of the Commission's Rules was dismissed as moot.

---

**SAT-PPL-20040318-00038** E S2592 Intelsat North America LLC  
Petition for Declaratory Ruling to be Added to the Permitted List  
Grant of Authority Effective Date: 07/16/2004

**Nature of Service:** Fixed Satellite Service

On March 18, 2004, Intelsat North America LLC ("Intelsat North America") notified the Commission, pursuant to Section 25.137(g) of the Commission's rules, of a change in ownership of the Telstar 13 space station from Loral SpaceCom Corporation ("Loral") to Intelsat North America. The Telstar 13 space station was added to the Permitted Space Station List on August 8, 2003. See Order, 18 FCC Rcd 16374 (2003). The notification of the change of ownership was placed on Public Notice on April 2, 2004. See Public Notice, Report No. SAT-00206. No comments were received in response to the Public Notice.

After review, the Satellite Division has determined that the transfer of control from Loral to Intelsat North America does not affect any of the considerations made when the original satellite operator was allowed to enter the U.S. market. The Permitted Space Station List will be amended to reflect the change of ownership of Telstar 13 from Loral to Intelsat North America. In addition, we will amend the Permitted Space Station List to reflect the re-naming of the Telstar 13 space station as "Intelsat Americas 13" ("IA-13").

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
