NOTICE OF PROPOSED RULE MAKING

Adopted: February 4, 2004

Released: February 9, 2004

Comment Date: April 1, 2004

Reply Comment Date: April 16, 2004

By the Assistant Chief, Audio Division:

1. The Audio Division has before it a petition for rule making in which Desert Sky Media, LLC, licensee of Station KVG(SFM), Laughlin, Nevada, ("Petitioner"), proposes the reallocation of Channel 300C from Laughlin to Meadview, Arizona, as the community's first local transmission service, and the modification of the license for Station KVG(SFM) to reflect the changes. Petitioner pledges to file an application for the channel and will construct the facilities if the application is granted.

2. Petitioner filed this proposal for reallocation in accordance with the provisions of Section 1.420(i) of the Commission's Rules, which permits the modification of a station's license to specify a new community of license while not affording other interested parties the opportunity to file competing expressions of interest in the proposed allotment. In considering a reallocation proposal, we compare the existing allotment to the proposed allotment to determine whether the reallocation will result in a preferential arrangement of allotments. This determination is based upon the FM Allotment priorities.

3. In support of the petition, Petitioner states that its proposal will serve the public interest, it would result in a preferential arrangement of allotments, and meets the requirements for reallocation set forth in Change of Community R&O. First, the allotment of Channel 300C at Meadview is mutually exclusive with the current use of Channel 300C at Laughlin. Second, the community of Laughlin would not be deprived of its only local service. Third, the proposal would provide a first local aural transmission service at Meadview, under Priority three, which will result in a preferential arrangement of allotments over the retention of a second local transmission service at Laughlin, under Priority four. In addition, Petitioner includes information regarding the gain and loss of service resulting from the

1 See Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License ("Change of Community R&O"), 4 FCC Rcd 4870 (1989), recon. granted in part, 5 FCC Rcd 7094 (1990).

2 See Revision of FM Assignment Policies and Procedures, 90 FCC2d 88, 91 (1988). The FM Allotment priorities are (1) First full-time aural service. (2) Second full-time aural service. (3) First local service. (4) Other public interest matters. [Co-equal weight is given to given to priorities (2) and (3)].

3 Station KLSQ(AM) will remain in Laughlin. Petitioner notes that Station KADD is also licensed to Laughlin, but it has a petition pending to relocate to Logandale, Nevada in MB Docket No. 01-135.

downgrade and reallocation. It states that the proposed operation will result in a net gain in population of 508,311 persons within the 60dBu signal from the station and that there will be no white or gray area created. Our engineering analysis shows that the loss area would be 3,762 square kilometers with a population of 13,672 persons, and the gain area would also be 3,762 square kilometers with a population of 530,478 persons, for a net gain of 516,806 persons. Our analysis shows that the entire loss area will be well served with five or more aural services. We seek comment on the potential loss of service from this proposal and the public interest benefits of the change of community.

4. In further support of the reallocation, Petitioner states that Meadview is a community for allotment purposes, that it is not in any urbanized area, and that its proposed 70dBu will cover less than 50% of any urbanized area.<sup>4</sup> In support of its community status, Petitioner states that Meadview is a rural community located in the Mojave Desert at the "natural" end of the Grand Canyon National Park as the Colorado River flows into Lake Mead. Meadview is the only community within the Lake Mead Recreational Area. According to Petitioner, the Meadview area Chamber of Commerce states that Meadview's population is approximately 1500 persons. The U.S. Post Office associates zip code 86444 with Meadview, and operates the Meadview Main Post Office. Meadview also has its own local volunteer fire department, offering fire, rescue, EMS and other services. Meadview has two churches, a branch of the county library, and an airport, owned by the National Park Service. There are numerous businesses located there, with the name Meadview in their names.

5. We seek comment on the community status of Meadview. The community is not incorporated or in the Census. The zip code, 86444, is listed in the 2000 U.S. Census, with an associated population of 867 persons, without designation to a community. Petitioner is to explain the population discrepancy in its comments. There is no government, police department or other municipal services associated with communities. In addition, we seek comment on site availability. Petitioner points out that the community is located near one national park and inside another. Reasonable assurance of a site on which a tower can be built needs to be given before the station will be reallocated.<sup>5</sup>

6. We believe that the proposal warrants consideration because it would provide Meadview with a first local aural transmission service without depriving Laughlin of its sole local transmission service. Channel 300C has been proposed to be reallocated at Meadview at petitioner's proposed site 20.3 kilometers (12.6 miles) west of the community.<sup>6</sup>

7. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

<u>Community</u>	<u>Present</u>	<u>Channel</u>	<u>Proposed</u>
Laughlin, Nevada	300C		---
Meadview, Arizona	---		300C
