ERRATUM

Adopted: April 18, 2002

Released: April 19, 2002

By the Chief, Public Safety and Private Wireless Division
Wireless Telecommunications Bureau

Footnote No. 149 of the *Notice of Proposed Rule Making* in the captioned proceeding, 17 FCC Rcd 4873 (2002), contained erroneous 2 GHz frequency data and is corrected to read:

¹⁴⁹ For example, Nextel proposes that two 5 MHz spectrum blocks be allocated to it, on an exclusive basis, in exchange for 700, 800 and 900 MHz spectrum it would vacate to effect its 800 MHz band restructuring proposal. See *Nextel Proposal* at 39 (Nextel's contribution is contingent on Nextel obtaining use of the NPSPAC channels and 10 MHz of MSS spectrum.) We note that the frequencies in the *Nextel Proposal*, 2020-2025 MHz and 2170-2175 MHz, do not match the frequencies that are proposed for reallocation to advanced wireless services in the near term in the *Advanced Wireless Services Proceeding, i.e., 2020-2025 MHz and 2165-2170 MHz*.
