ERRATA

Adopted: June 10, 2004

Released: June 10, 2004

By the Chief, Pricing Policy Division, Wireline Competition Bureau:

1. On April 19, 2004, the Commission released Tariff Review Plans (TRP) in the above captioned proceeding for use by incumbent rate-of-return local exchange carriers (LECs) in the 2004 interstate annual access filing.<sup>1</sup> The TRPs display basic data on rate development in a consistent manner, thereby facilitating the review by the Commission and interested parties of incumbent LEC rate revisions.

2. The TRPs include several forms and worksheets. By this errata, we make two corrections to this material. First, we correct the formula for Cell F12 of the ACR-1 historical and projected work sheets to read: “+D14\*+E18.” This correction removes local switching support from the local switching revenue requirement prior to applying the line port reallocation factors.<sup>2</sup> Presently, the formula for Cell F12 incorrectly reads: “+B14\*+E18.” Second, we eliminate the requirement that carriers file the MAG-1 and MAG-2 work sheets. The MAG-1 work sheet incorrectly reallocates the transport interconnection charge revenue requirement among the access categories. Rather than correct this, we eliminate this work sheet along with the related MAG-2 work sheet because they are not needed in this filing.

3. Accordingly, IT IS ORDERED, pursuant to sections 201-205 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 201-205, and the authority delegated pursuant to sections 0.91 and 0.291 of the Commission’s rules, 47 C.F.R. §§ 0.91, 0.291, that the Tariff Review Plan IS AMENDED as described above.
