Report No. SAT-00224

Friday July 9, 2004

## POLICY BRANCH INFORMATION

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-AMD-20040603-00111** E S2387 PanAmSat Licensee Corp.  
Date Filed: 06/03/2004 17:25:59:19000  
Amendment

PanAmSat Licensee Corp. (PanAmSat) currently has pending before the Commission an application (File No.: SAT-AMD-20031103-00320) to operate Galaxy 15 from 133° WL, providing U.S. coverage utilizing the 5925-6425 MHz and 3700-4200 MHz frequency bands. In this amendment, PanAmSat supplements its pending application to address the potential impact on cofrequency adjacent satellites from the proposed operation of Galaxy 15. In addition, subsequent to the initial filing, PanAmSat reached agreement with Lockheed Martin Corporation (LM) to incorporate LM's Regional Positioning System (RPS) payload onto Galaxy 15 (see File No. SAT-AMD-20040203-00011 for a description of LM's RPS payload). As a result of the inclusion of the LM payload and modifications to the spacecraft unrelated to the LM payload, other Galaxy 15 parameters have changed and need to be updated. This amendment specifies changes related to the following areas: a) Spacecraft Structure; b) Spacecraft Power Budget; c) Spacecraft Mass Budget; d) Command Frequency and e) Telemetry EIRP.

**SAT-STA-20040524-00103** E DBS8402 DIRECTV Enterprises, LLC  
Date Filed: 05/24/2004 09:45:30:91600  
Special Temporary Authority

DIRECTV Enterprises, LLC (DIRECTV) has filed a request for special temporary authority (STA) to operate its geostationary space station DBS8402 (DIRECTV 1) at the 101° W.L. orbital position at the currently licensed parameters and specifications for 180 days beyond the license expiration date, through and including December 2, 2004.
